EXPERIENCE

Junior Developer

October 2022 – July 2023

Speur Professional Services

- Engaged with banking and financial systems, leveraging Linux-based environments to navigate and troubleshoot various financial software applications.
- Shadowed seasoned developers, gaining insights into complex software systems and workflows, and absorbing valuable knowledge about architecture design and coding standards.
- Successfully completed rigorous coursework in software development, honing proficiency in programming languages, frameworks and technologies such as Vuejs, SpringBoot, Docker, Linux and Oracle

Tech Support Representative

July 2021 – September 2022

Mona School of Business Management

- Delivered timely and effective technical support to MSBM employees, addressing a wide range of software and hardware-related issues to ensure uninterrupted operations.
- Demonstrated strong problem-solving skills by analyzing complex technical challenges, identifying root causes, and implementing effective solutions to minimize disruptions
- Played an integral role in onboarding new staff members by providing comprehensive training on software tools, systems, and processes, facilitating their rapid integration into the organization.
- Developed training materials and documentation to ensure consistent and efficient knowledge transfer, reducing the learning curve for new hires.

PROJECTS

Course Management System

[Github](#) [Live Demo](#)

Created a live course management system that enables users to login, view, rate and comment on courses. Admin functionalities include adding new courses

Discord Bot

[Github](#)

Constructed a Python Discord bot for continuous server monitoring. Captures and stores data in a MongoDB Database, while fetching and posting news articles and search results using API's and Web scraping. Enhances user experience by delivering realtime content.

SKILLS

Javascript
HTML

CSS/SCSS
SQL
